 Approval of the Minutes from November 28th 2018 <u>Approved Unanimously</u>
- - Discussion: Member Spencer Muse moved to approve.

OLD BUSINESS

Mathematics Education(13MTHEDBS) Suplan 13MTHEDCPS- Approved Pending

Discussion: Member Peter Hessling moved to approve the curricular action. Members reminded each other that E 115 needed to be added to the curricular action. Member brought attention to CSC 110 in the curricula and that it hasn't been created yet. Motion to change motion to approve pending the approval of CSC 110.

Technology, Engineering, & Design Education (BS) Graphic Communications 13TDEBS-13TDEGC - Approved **Unanimously**

Discussion: Member Peter Hessling moved to approve. Members reminded each other that this was originally tabled because the total curricula was 119 hours. Member requested that curricular actions to no longer have ranges, chair suggested making a friendly suggestion when that comes up.

NEW BUSINESS

Consent Agenda (ANT254,BCH451,BME315,ect.) -Approved Unanimously Discussion: Member Wendy Krause moved to approve.

the name of the building in the DRO statement to Holmes Hall.

NR 219 Natural Resource Business and Investment- Approved Pending with Friendly Suggestion Discussion: Member Joseph Roise presented the course action. Member brought attention to the requisites and scheduling where it read that 33% of seats were open, but that 1/3 of the class was reserved for majors only. Guest Gary Blank clarified that 1/3 is the correct number of seats being reserved for majors only. Member brought attention to the GEP outcomes indicating that "understand" is not a measurable term and suggested updating this before the course is reviewed by CUE. Member suggested removing the last sentence in the catalog description, which lists the seating restriction, so that the catalog description wouldn't need to be updated whenever the seat reservation changes. Member asked if the consultation information needed to be acted on, Li clarified that the consultation provides suggestions but did not list anything required. What was written can be taken as suggestion for the committee if they wish to act upon it. Member asked for clarification regarding whether NR 219 should be equivalent to EC 205 and EC 201. Guest clarified that while some of the information is the same, the application of the information is specific and expanded for the NR students and so should not be equivalent. Guest indicated around 50% of natural resource students transfer in and this course would allow them the option of using ARE 201, EC 205 and EC 201 instead. Guest confirmed that students would be able to take NR 219 and the other courses for credit. Member suggested updating

Members moved to change the motion form approved to approved pending updating the justification section in CIM to indicate the course would have additional insight and would allow credit for this and the listed courses and the correction of the building name in the DRO statement.

FW 495 Special Topics in Fisheries and Wildlife Science - Approved Unanimously

Discussion: Member Joseph Roise presented the course action.

NR 295 Special Topics in Natural Resources- Approved Unanimously

Discussion: Member Joseph Roise presented the course action.

> PRT 200 Health, Wellness and the Pursuit of Happiness- Approved Pending

Discussion: Member Joseph Roise presented the course action and moved to approve the course pending the update to the DRO statement and the inclusion of the GEP and student learning outcomes in the syllabus and updating the contact hours to 3.

- TTM 106 Yarn Formation, Classification and Numbering Systems Approved with Friendly Suggestions

 Discussion: Member Wendy Krause presented the new course action. Member brought attention to page 2 of the syllabus in grading for attendance and made the friendly suggestion to remove the statement from the grading section on the bottom of page 2. Member asked if the course indicates laptops are not permitted but the DRO statement indicates students with disabilities would be allowed to use which would bring attention to them as students with disabilities. Member complimented the identity statement.
- ▶ BS Polymer and Color Chemistry, ACS Certification 18PCCBS-18PCCACS Approved Pending with Friendly Suggestions

Discussion: Member Wendy Krause presented the curricular action. Member indicated the math in format B adding to 96, not 99. Member made the friendly suggestion to remove the ranges in the junior year Spring semester and senior year Fall semester. Member moved to change the motion to approve pending the inclusion of the course for the correct number of credit hours.

- **BS Textile Technology 18TEXTECHBS -** Approved with Friendly Suggestions
 - BS Textile Technology, Technical Textiles 18TEXTECHBS-18TEXTECHTT -
 - BS Textile Technology, Supply Chain Operations 18TEXTECHBS-18TEXTECHSC-
 - BS Textile Technology, Medical Textiles 18TEXTECHBS-18TEXTECHMT -

Discussion: Member Wendy Krause presented the curricular action. Guest Russell Gorga provided a brief summary of the changes to the four subplans. Member brought attention to the Math requirements indicating you must have a C- in MA 131 and suggested adding "and MA 141" to clarify.

- Fashion and Textile Design Curricula (18FTDBS-18FTDTEX) & (18FTDBS-18FTDFAS) Approved Unanimously Discussion: Member Wendy Krause presented the curricular action.
- Fashion and Textile Management Curricula (18FTMBS-18FTMBMM) & (18FTMBS-18FTMFDP)- Approved Unanimously

Discussion: Member Wendy Krause presented the curricular action.

CS 418/(518) Intro to Regulatory Science in Agriculture – Tabled with Friendly Suggestions

Discussion: Member Jackie Bruce presented the course action and moved to approve pending the correction of the DRO statement. Member brought attention to the attendance portion of the syllabus and asked if attendance/ participation is being counted twice? Another member indicated the attendance portion of the syllabus in unintelligible and added to the pending portion. Li Marcus indicated this would go beyond the purview of OUCCAS as an administrative office to review the attendance portion content without specific suggestions from the committee. Member moved to change the motion to tabled upon further clarification of the attendance and participation policies. Member indicated the sample syllabus only provides 15 weeks, members discussed that this could be missing the week included in official schedules to make the full 16 weeks, member also noted that day one is included twice in the schedule. In the graduate (518) Grade Components points 1 & 2 are the same. Member brought attention to the fact that an exam is indicated in the schedule but no exam is mentioned in the grading portion of the syllabus

Agriculture Education BS 11AGEDAGB, 11AGEDAET, 11AGEDANS - Approved Unanimously Agriculture Education BS 11AGEDHS, 11AGEDNR, 11AGEDPSC, 11AGESBS - Approved Unanimously 11AGEDAGR- Approved with Friendly Suggestions

Discussion: Member Melissa Merrill presented the curricular action and introduced the proxy Travis Park who provided a brief description of the action. Member made the friendly suggestion in the superscript in the Fall semester of the Junior year should be a 6 (ELP 344) in the 11AGEDAGR format A.

➤ GN 428 Introduction to Machine Learning in Biology - Approved Pending with Friendly Suggestions
Discussion: Member Spencer Muse presented the new course action and moved to approve the course pending the correction of the DRO statement. Member brought attention to the attendance policy and made the friendly suggestion

to clarify if the attendance is worth 10% of the total grade. Policy on incomplete grades link is broken.

MEA 217 Introduction to Computing in the Geosciences - Tabled with Friendly Suggestion

Discussion: Member Spencer Muse presented the new course action. Member brought attention to the restrictive statement and indicated there should be specific courses listed as pre-requisites, presenter indicated this would be an extremely wide range of courses. Members suggested moving the restrictive statement to the catalog description for students to be able to read during enrollment. Member suggested on page 3 grading policy, second line typo changing "and" to "an". Member indicated the unusual grading was approved by the college level curricula committee and the curve calculations are in line with university policy. Members discussed how students would potentially not know how they were doing in the course until the end when the curve would be applied to bring the class average to a B-. Members discussed the potential situation of a section of the course having excellent performance being brought down as a whole to a B-. Members discussed the inconsistency of grading and the grade meaning provided in the syllabus and the professor providing grades that would be difficult to justify and provide evidence as to how the student earned the grade. Members indicated it seems to be applying two standards that don't coexist, the bell curve and grade meaning. Motion to table the action to provide clarity on what appears to be conflicting grading.

➤ Geology (BS) 17GEOLBS - Approved Unanimously

Discussion: Member Tony Planchart presented the curricular action. Members discussed that this is not impacted by the 120 credit hour mandate and confirmed there are revisions and the curricula was already at 120 credit hours.

> HI 263 Asian Civilization to 1800 - Approved with Friendly Suggestions

Discussion: Member Catherine Driscoll presented the course action. Member made the friendly suggestion to remove "ability to" and in the third and fourth student learning outcomes. Member brought attention to the attendance policy and suggested clarification of what "a reasonable number" of excused absences would be, to provide rounding grading scale and on page 4 of the syllabus about make up examinations and late papers to link this information to the absence section. Member brought attention to the required text, and suggested moving the text about the required textbooks being available in the library to the bottom of the Required Textbook syllabus section. Member also reminded the committee if an e-book will be a required book for a course would need to register with the library.

HI 351 U.S. Naval History- Approved Pending

Discussion: Member Catherine Driscoll presented the course action and moved to approve the course pending the update to the DRO statement. Member commended the seventh learning objective

> HI 364 History of North Carolina - Approved Pending with Friendly Suggestions.

Discussion: Member Catherine Driscoll presented the course action and moved to approve the course pending the update to the DRO statement. Member brought attention to the 5% grade reduction for students violating the electronic device policy and asked what grade is being reduced, the participation grade portion as a friendly suggestion.

> Motion to extend the meeting by 15 minutes to finish the agenda-Motion approved

HI 365 The American West - Approved Pending

Discussion: Member Catherine Driscoll presented the course action and moved to approve the course pending the update to the DRO statement. Member brought attention to the evaluation methods in CIM, members discussed and clarified that final exams can be written take home exams at the discretion of the instructor.

HI 472 Fashion, Food, and Fun: Material Culture in Chinese History - Approved Unanimously

Discussion: Member Scott Despain presented the course action.

> SOC 206 Social Deviance - Approved with Friendly Suggestions

Discussion: Member Scott Despain presented the course action. Member brought attention to the student learning outcomes indicating 6 should remove "form and strengthen ability to" and to reword the 1st outcome. Member suggested providing a rounding statement for the grading scale.

SOC 306 Criminology - Approved with Friendly Suggestions

Discussion: Member Scott Despain presented the course action. Member suggested changing the 1st student learning outcome to make more measurable. Member brought attention to the evaluation methods and asked if the 25% of the final grade being "other" is just students doing things and asked if the word "approximately" for the "Think/Pair/Share Exercise" is necessary as the 20 points seem set. Member indicated students with disabilities using e-readers may have trouble reading the picture fonts used in the syllabus.

> USC 250 Global Health In Context - Approved Pending with Friendly Suggestions

Discussion: Member Annie Carlson Welch presented the course action and moved to approve the course pending the

update to the DRO statement. Friendly suggestion to clean up the CIM form indicating the course doesn't fulfill GEP requirements. Member asked if the requirement for vaccination would be something students could be exempt from for religious purposes. Friendly suggestion to remove "reflect on" in the last learning outcome and using more measurable terms. Member made friendly suggestion to clarify the GEP information about the trip students would take. Member brought attention to the trip not being codable as a restriction.

ECE/BME 418/(518) Wearable Biosensors and Microsystems- Approved Pending

Discussion: Member Kanton Reynolds presented the course action and moved to approve the course pending the update to the DRO statement. Member made the action pending the student learning outcomes and replacing the current SLOs with those in the syllabus to match CIM. Members added pending reflecting the 20 additional points graduate students will earn in the CIM student evaluation methods.

Meeting adjourned at 3:03 pm

NCSU GENERAL EDUCATION PROGRAM REQUIREMENTS Courses in the Major and/or Minor may also fulfill a General Education requirement; however, a GEP category may not be subset to require a specific course from the category list. Required courses must be listed in the Major/College requirements. Specific courses should not be listed in any of the fields below other than ENG 101.		At least one of the following must be listed: Choose course(s) from the University Approved GEP course list for this category. Minimum requirements are satisfied by Major/College course requirements. Major/College course requirement satisfies credit hrs of this requirement. Remaining hours required must be chosen from the University Approved GEP course list for the category. Co-requisite is satisfied by a Major/College course requirement. Choose course(s) from the University Approved GEP course lists for the Humanities/ Social Sciences/ Visual & Performing Arts. Choose course(s) from the University Approved GEP course lists for Natural Sciences/Mathematical Sciences.	
General Education Program Requirements: Minimum 39-40 hrs	Credit hours	How will the GEP requirement be met? (Choose applicable statement from 1-6 listed above)	
Mathematical Sciences (6 credits) (At least 1 course with MA or ST prefix) Course(s) in the Major may double-count to satisfy this requirement and also satisfy either the Global Knowledge or U.S. Diversity co-requisites.	6	(Choose statement 1, 2 or 3) Choose course(s) from the University Approved GEP course list for this category.	
Natural Sciences (7 credits) (At least 1 lab course or course with a lab) Course(s) in the Major may double-count to satisfy this requirement and also satisfy either the Global Knowledge or U.S. Diversity co-requisites.	7	(Choose statement 1, 2 or 3) Choose course(s) from the University Approved GEP course list for this category.	
English 101 (C- or better required) (4 credits)	4	ENG 101	
Humanities (6 credits) (Courses from two different disciplines) Course(s) in the Major may double-count to satisfy this requirement and also satisfy either the Global Knowledge or U.S. Diversity co-requisites.	х	(Choose statement 1, 2 or 3) Minimum requirements are satisfied by Major/College course requirements.	
Social Sciences (6 credits) (Courses from two different disciplines) Course(s) in the Major may double-count to satisfy this requirement and also satisfy either the Global Knowledge or U.S. Diversity co-requisites.	х	(Choose statement 1, 2 or 3) Minimum requirements are satisfied by Major/College course requirements.	
Additional Breadth (Choose approach that is different from the approach of the Major) Major/College requirements cannot satisfy this requirement and an AB course cannot be double-counted except in satisfying the Global Knowledge or U.S. Diversity co-requisites.	3	(Choose statement 5 or 6) Choose course(s) from the University Approved GEP course lists for Natural Sciences/Mathematical Sciences.	
Interdisciplinary Perspectives (5 credits) Course(s) in the Major may double-count to satisfy this requirement and also satisfy either the Global Knowledge or U.S. Diversity co-requisites.	5	(Choose statement 1, 2 or 3) Choose course(s) from the University Approved GEP course list for this category.	
Health and Exercise Studies (2 credits) (Including one Fitness and Wellness course)	2	Choose course(s) from the University Approved GEP course list for this category.	
Total credit hours needed to complete GEP that are <u>not</u> satisfied as part of the Major/College requirements.	27		
GEP Co-Requisites:		Courses taken in the Major, GEP, or Minor may double-count to fulfill the co-requisites. Courses that satisfy the U.S. Diversity or Global Knowledge co-requisite are marked on course lists with a "USD" or "GK" indicator.	
U.S. Diversity co-requisite (USD)	n/a	(Choose statement 1 or 4) Choose course(s) from the University Approved GEP course list for this category.	
Global Knowledge co-requisite (GK)	n/a	(Choose statement 1 or 4) Choose course(s) from the University Approved GEP course

Major/Program Footnotes: See https://www.acs.ncsu.edu/php/coursecat/degree requirements.php for more information

- 1. Basic Science: Twelve (12) hours from Natural Science Group 201 Basic Sciences. (Three basic laboratory science courses from the GEP list of Natural Science courses. One course each from three of the following areas: Biological Sciences, Chemistry, Earth Sciences, and Physics). Four (4) hours from Group 202 Science Electives (One additional laboratory science course from the GEP list of Natural Science courses). 16 credits.
- 2. Calculus: Choose one course from the College approved list. 3-4 credits.
- 3. Math Electives: Two additional math or statistics courses chosen from MA 114 and above or ST 305 and above. One of the courses must be selected from the GEP Mathematical Sciences list. 6 to 8 credits
- 4. Advanced Science/ Technology Requirement: A 15-hour concentration in ONE area of science, technology, or mathematics is required. A minimum GPA of 2.0 is required in this group of courses. Approval of the selected courses will be indicated by the signature of the student, the student's advisor, the department's B.S. program coordinator (if different from the advisor), and the H&SS Associate/Assistant Dean.

5. History I & History Breadth One 3-credit course required from the College-approved History I course list; (a 200-level survey course covering a culture significantly different from our own, i.e., ancient or non-Western). One additional 3-credit course as follows; GRP A: If HSS History I requirement is met by a WORLD history course: one course at HI 2xx or HI 3xx level (excluding HI 300) in ASIA/AFRICA/LATIN AMERICA. GEP Co-Requisites:		Courses taken in the Major, GEP, or Minor may double-count to fulfill the co-requisites. Courses that satisfy the U.S. Diversity or Global Knowledge co-requisite are marked on course lists with a "USD" or "GK" indicator.
U.S. Diversity co-requisite (USD)	n/a	(Choose statement 1 or 4)
Global Knowledge co-requisite (GK)	n/a	(Choose statement 1 or 4)
Foreign Language Proficiency	n/a	Proficiency at the FL_102 level required.
The following requirements must be satisfied within the College/Program:		Place an X in the credit hour box to indicate below that the requirement is "Satisfied by College/Program Requirements"
Communication in the Major (Advanced Communication)		Satisfied by College/Program Requirements
Technology Fluency		Satisfied by College/Program Requirements
Total credit hours required to complete Degree: Total must be within 120-128 credit hours.	120	As applicable, indicate here the overall GPA requirement for degree completion including course completion.

History (16HIM)

Description

The minor in History is flexible in that it can provide depth to a variety of majors by granting a larger historical understanding of a subject. Thus, students majoring in political science but with a special interest in the Middle East or Europe can gain a much deeper understanding of how events in the past have shaped present dilemmas. Likewise, those wishing to attend law school can choose from a range of courses in legal history. You can tailor the minor to suit your individual interests. History courses teach not only background, but methods of research, analysis, and writing. No courses for the minor may be taken for S/U credit.

Requirements

- Open to any student and is without any prerequisites.
- Completion of 18 hours (6 courses) in History.
- A grade of 'C-' or better in all completed courses used toward the minor.
- A maximum of ONE (1) course may be used (double-counted) towards both departmental major requirements and minor requirements.

Required Courses (6 credit hours)

Choose 2 courses (6 credits) from the following [delete 200-level] geotemporal courses.

- HI 205 Western Civilization Since 1400
- HI 207 Ancient World to 180 A.D.
- HI 208 The Middle Ages
- HI 209 Europe, Renaissance to Waterloo, 1300-1815
- HI 210 Modern Europe 1815-Present
- HI 214 History and Archaeology of Ancient Latin America
- HI 215 Latin America to 1826
- HI 216 Latin America Since 1826
- Add HI 216 Caribbean History
- HI 221 British History to 1688
- HI 222 History of British Cultures and Societies
- HI 233 The World in the 20th Century
- HI 251 Early American History
- HI 252 Modern American History
- HI 254 Modern American History
- HI 263 Asian Civilizations to 1800
- HI 264 Modern Asia: 1800 to Present

- HI 276 Introduction to History of West Africa
- Add HI 323 Science, American Style

- Add HI 340 History of Agriculture
- Add HI 345 American Popular Culture

Elective Courses (12 credits)

Choose 2 courses at the 400 level and 2 courses at the 300 level or above.

- 2 courses at the 300 level or above (6 cr)
- 2 courses at the 400 level (6 cr)

Admissions

Students may declare their intention to complete the history minor at any time. Students are, however, encouraged to discuss their interests and intentions with the minor advisor early in their college careers. Students will work with an advisor to create a minor plan. Once this plan has been created, students can complete the application form and submit for approval by the Department.

Certification

Dean Bruno will certify the minor prior to graduation. Paperwork for certification is completed once the student has completed the courses for the minor or at the beginning of the student's final semester, whichever occurs first. Still, students should check with the advisor no later than the pre-registration period for the student's final semester at NC State to make sure they are not missing any courses for the minor.

MEMORANDUM

TO: University Courses and Curricula Committee (UCCC)

FROM: Matthew Booker, Director, Science, Technology and Society Program

DATE: October 11, 2018

SUBJECT: Curriculum Revisions – 16STSBA, 16STSBS, 16STM

Please add HI 360, US Agricultural History, to the following:

16STSBA Breadth electives (Requirement: 000026426), **History** sub-group. 16STSBS Breadth electives (Requirement: 000026426), **History** sub-group

16STM Group I elective courses (Requirement: 000031822) and Additional Elective

(Requirement: 000031826)

Please add COM 289, Science Communication & Public Engagement to the following:

16STSBA Breadth electives (Requirement: 000026426), **Other** sub-group.

16STSBS Breadth electives (Requirement: 000026426), Other sub-group.

16STM Group III elective courses (Requirement: 000031824) and Additional Elective

(Requirement: 000031826)

Justification - The impact of the revision will be to provide students with additional options to fulfill major/minor requirements.

The proposed effective date for this revision is Spring 2019 (2191).

Major/Program Footnotes:

- 1. Basic Science: Twelve (12) hours from Natural Science Group 201 Basic Sciences. (Three basic laboratory science courses from the GEP list of Natural Science courses. One course each from three of the following areas: Biological Sciences, Chemistry, Earth Sciences, and Physics). Four (4) hours from Group 202 Science Electives (One additional laboratory science course from the GEP list of Natural Science courses). 16 credits.
- 2. Calculus and Statistics Electives: 6 to 7 credits. Choose one introductory calculus course from the College approved list. Additionally, a course in statistics at the 300-level or above is required.
- 3. Mathematics Elective: Two additional math or statistics courses chosen from MA 114 and above or ST 305 and above. One of the courses must be selected from the GEP Mathematical Sciences list. 6 to 8 credits
- 4. Advanced Science/ Technology Requirement: A 15-hour concentration in ONE area of science, technology, or mathematics is required. A minimum GPA of 2.0 is required in this group of courses. Approval of the selected courses will be indicated by the signature of the student, the student's advisor, the department's B.S. program coordinator (if different from the advisor), and the H&SS Associate/Assistant Dean.

- 5. History: Choose from the College oved list, one 3-credit 200-level survey course covering a culture significantly different from our own, i.e., ancient or non-Western, or one 3-credit 200-level survey course covering our own or a similar culture, i.e., United States or other Western Culture
- 6. Literature: Choose from the College approved list, one 3-credit survey course covering literature outside the U.S. and prior to the 20th century; or a course in American or Twentieth Century Literature; an upper division survey course; literature course in a period, genre, or major figure in English, a foreign language in English translation, or the original foreign language.
- 7. Writing and Communication: One course in advanced writing, speech, or a 200-level foreign language course. 3 credits.
- 8. Social Science: Nine (9) credit hours, selected from College-approved list, required from three different disciplines, six (6) hours must be on GEP-Social Sciences list.
- 9. Philosophy: Any PHI course on the approved GEP-Humanities list. 3 credits
- 10. Arts and Letters: One 3-credit hour course is required from the College-approved Arts & Letters course list. 3 credits
- 11. Free Elective: Maximum 12 hours of free electives may be taken for credit only.
- 12. Breadth 12 credits. From program-approved list, choose one course from each breadth group, which include History, Philosophy of Science and Ethics, Assessment and Policy, and Other STS Courses.
- 13. Specialty 12 credits. In consultation with the STS Program Director or an Academic Advisor, every STS major designs a STS Specialty, 12 credit hours, that addresses a coherent theme related to science, technology and society. At least two of the STS Specialty courses must be offered by departments or programs in the College of Humanities and Social Sciences. STS Specialty includes courses typically at the 300- and 400- or higher levels and no more than one course at the 200-level. 100-level courses are not permitted in the STS Specialty.
- 14. Major Residency Requirement At least 18 of the 30 credits in the major (departmental requirements) must to be completed following admission to the program. Maximum 15 hours of external transfer credit may be applied towards the major (departmental requirements).
- 15. Major Grade Point Average (MGPA) Requirements 2.0 major GPA is required for graduation. See department or College for information regarding mpga calculation.

*General Education Program (GEP) requirements and GEP Footnotes:

To complete the requirements for graduation and the General Education Program, the following category credit hours and co-requisites must be satisfied.

University approved GEP course lists for each of the following categories can be found at http://www.ncsu.edu/uap/academic-standards/gep/courselists/index.html.

- A. Mathematical Sciences (6 credit hours one course with MA or ST prefix)

 Choose from the University approved GEP Mathematical Sciences course list or the following course(s) if completed as part of the Major requirements may fulfill part or all of this requirement: Minimum requirements are satisfied by College calculus and statistics requirements
- Natural Sciences (7 credit hours include one laboratory course or course with a lab)

 Choose from the University approved GEP Natural Sciences course list or the following course(s) if completed as part of the Major requirements may fulfill part or all of this requirement: Minimum requirements are satisfied by College basic science requirements.
- <u>Humanities</u> (6 credit hours selected from two different disciplines/course prefixes)
 Choose from the University approved GEP Humanities course list or the following course(s) if completed as part of the Major requirements may fulfill part or all of this requirement: Minimum requirements are satisfied by College History I and Philosophy requirements.
- <u>Social Sciences</u> (6 credit hours selected from two different disciplines/course prefixes)
 Choose from the University approved GEP Social Sciences course list or the following course(s) if completed as part of the Major requirements may fulfill part or all of this requirement: Minimum requirements are satisfied by College Social Sciences requirement.
- Physical Education/Healthy Living (2 credit hours at least one 100-level Fitness and Wellness Course)
 Choose from the University approved GEP Physical Education/Healthy Living course list.
- Additional Breadth (3 credit hours to be selected from the following checked University approved GEP course lists)
 Humanities/Social Sciences/Visual and Performing Arts or X Mathematical Sciences/Natural Sciences/Engineering
- G. Interdisciplinary Perspectives (5-6 credit hours)
 Choose from the University approved GEP Interdisciplinary Perspectives course list or the following course(s) if completed as part of the Major requirements may fulfill part or all of this requirement: STS 214
- H. Introduction to Writing (4 credit hours satisfied by completing ENG 101 with a C- or better)

The following Co-Requisites must be satisfied to complete the General Education Program requirements:

- L U.S. Diversity (USD)
 - Choose from the University approved GEP U.S. Diversity course list or choose a course identified on the approved GEP course lists as meeting the U.S. Diversity (USD) co-requisite. The following course(s) completed as part of the Major requirements may fulfill this requirement:
- Global Knowledge (GK)
 Choose from the University approved GEP Global Knowledge course list or choose a course identified on the approved GEP course lists as meeting the Global Knowledge (GK) co-requisite. The following course(s) completed as part of the Major requirements may fulfill this requirement:
- Foreign Language proficiency Proficiency at the FL_102 level is required for graduation.

Thanks Chris

A wee correction to the memo: the course is ECD 296H Caldwell Fellows Seminar: Foundations in Self-Development

A new course # ECD310H is pending . . but I don't know when it will officially change.

Hi Janice, I hope you are well!

I'm finally getting back to this memo to send forward to the curriculum committee to approve ECD 296 as a Nonprofit Minor Elective in the Degree Audit process. I've attached the memo that I've drafted. If you could reply back to this email stating your approval, I will include this email exchange in my request.

Thanks so much! Chris

Hope,

We confirm that we want to proceed with revisions to 16NPM Nonprofit Studies minor and the already approved NPS490 substitutions.

In April 2016, a minor revision was submitted by Nonprofit Studies Minor program and approved the by CHASS to add ECD 310 as a minor elective. At that time ECD 310 had not yet been proposed and approved by UCCC. ECD 310 is now in the course catalog and we may move this action forward.

Please review attached documents and confirm you'd like to proceed with this revision to 16NPM Nonprofit Studies minor. Please also confirm already approved NPS 490 substitutions (COM 496, ENG 350, PS 391, SOC 413, PSY 495, SW 490).

Let me know if you have any questions or concerns.

Nonprofit Studies (16NPM) Corrent

Description

The interdisciplinary minor in Nonprofit Studies is designed to prepare students for careers in the nonprofit sector, in both paid and volunteer positions. The program provides students with an understanding of the role of the nonprofit sector in society and builds students' knowledge, skills, and abilities in effective nonprofit leadership. Through multiple service-learning experiences and a nonprofit internship requirement, students are offered a variety of hands-on experiences designed to facilitate an understanding of the issues and challenges faced by nonprofit organizations and prepare students for nonprofit leadership positions in the 21st century. The minor in Nonprofit Studies is a strong complementary course of study for students with majors offered across the NC State campus including Communication, English, History, Political Science, Psychology, Social Work; Parks, Recreation and Tourism; Forestry; Business Management; Art and Design; Education and more. The minor in Nonprofit Studies enables students to explore the interconnections between their chosen field and the nonprofit sector. No courses for the minor may be taken for S/U credit.

Requirements

- Completion of a minimum of 16 credit hours of coursework, including an internship in a nonprofit organization (either departmental or through the Institute for Nonprofits).
- · A grade of 'C-' or better is required in all courses in the minor program.
- · Students must have a minimum overall grade point average of 2.0 to obtain the minor in Nonprofit Studies.
- A maximum of ONE (1) course may be used (double-counted) towards both departmental major requirements and minor requirements.

MEMORANDUM

TO: Un

Undergraduate Courses and Curricula Committee (UCCC)

FROM:

Karen R. Young, Ph.D.

Assistant Dean and Director of Undergraduate Programs

DATE:

8 November 2018

SUBJECT:

Reducing required credit hours to 120

In response to the new UNC System Office mandate to require no more than 120 hours for a four-year baccalaureate degree program, our college previously requested the reduction of free elective hours for any of our programs that were not already in compliance with the regulation in order to achieve compliance. However, unbeknownst to our Dean's Office, the university had recently separated our Foreign Language Education (16FLLBA-16FLLED) concentration into four different concentrations. This happened using methods outside of the standard OUCC processes to allow appropriate reporting about all NC State education degrees to the UNC System Office by a tight deadline (too short to run the curriculum changes through the standard OUCC processes). Because we were unaware of this change, we submitted the 16FLLBA-16FLLED code in our April 2018 memo, but not the newly disaggregated concentration codes. Additionally, because we did not review the Format As and Bs for those newly disaggregated concentrations, there were some errors that need to be corrected. We hope to make all of these corrections and updates at the same time.

Please reduce the free electives by three hours in the following degree plans:

16FLLBA-16FLCED

16FLLBA-16FLFED

16FLLBA-16FLGED

16FLLBA-16FLSED

MEMORANDUM

To: University Courses and Curricula Committee

From: Dr. Clint Stevenson, Distance Education Coordinator, Department of Food, Bioprocessing and

Nutrition Sciences

CC: Li Marcus

Date: November 2, 2018

Subject: Requested changes to the undergraduate certificate in Food Safety and Quality Management

The Undergraduate Certificate in Food Safety and Quality Management program currently requires students to take the following courses:

- FS 250 Basics of Food Safety and Quality; 3 credits
- FS 435 Food Safety Management Systems; 3 credits
- FS 416 Quality Control in Food and Bioprocessing; 3 credits
- BUS 370 Operations Management; 3 credits

The first three courses are primary courses of study for students interested in food safety and quality management careers. There is opportunity to improve the program by making FS 250, FS 435 and FS 416 required courses while also making BUS 370 an elective course and adding more courses as electives.

- ENT 207 Insects and Human Disease; 3 credits; DE section
- FS 421 Food Preservation; 3 credits; face-to-face
 - Pre-requisite courses: FS 231 Principles of Food and Bioprocess Engineering and FS 405 Food Microbiology
- PO 425 Feed Mill Manufacturing Technology; 3 credits; DE section
 - PO 415 Comparative Nutrition or ANS 230 Animal Nutrition or ANS 225 Principles of Animal Nutrition
- FM 480 Feed Quality Assurance & Formulation; 3 credits; DE section
 - o Pre-requisite course: PO 425 Feed Mill Manufacturing Technology
- HS 462 Postharvest Physiology; 3 credits; DE section
 - o Pre-requisite course: PB 421 Plant Physiology
- ISE 352 Fundamentals of Human-Machine Systems Design; 3 credits; face-to-face
 - Pre-requisite courses: ISE 110 Computer-Based Modelling for Engineers and either ST 370 Probability and Statistics for Engineers or ST 371 Introduction to Probability and Distribution Theory
- PSY 307 Industrial and Organizational Psychology; 3 credits; DE section
 - o Pre-requisite course: PSY 200 Introduction to Psychology

Current Program: organized as listed in the table below:

Course	Credits	Required	DE Section Available?
FS 250 Basics of Food Safety and Quality	3	Yes	Yes
FS 416 Quality Control in Food and Bioprocessing	3	Yes	Yes
FS 435/535 Food Safety Management Systems	3	Yes	Yes
BUS 370 Operations Management	3	Yes	Yes*

^{*}BUS 370 is only offered in the Summer session for non-BUS majors

Proposed Program: organized as listed in the table below.

Description

The University Certificate in Food Safety & Quality Management provides individuals an opportunity to learn basic food safety, quality control, and operations management concepts that are useful throughout the food manufacturing supply chain. It is available to non-degree seeking students and both undergraduate and graduate students at N.C. State University.

adding ISE 352 as an elective to undergraduate certificate in food safety and quality management

Clint Stevenson <cdsteve3@ncsu.edu> To: csnam@ncsu.edu, xxu@ncsu.edu

Mon, Apr 16, 2018 at 10:54 AM

Dear Drs Nam and Xu,

I coordinate the undergraduate certificate in food safety and quality management and would like to make your course ISE 352 available as an elective to the program. Food safety and quality managers working in industry may be more successful if they can understand how to improve operator performance and production process efficiency, and I see these topics are listed in the catalog description for your course. I realize there are pre-requisites to your course and am fine with that.

Will you please let me know whether you support my idea to add ISE 352 as an elective in the certificate program? I'd be happy to meet in your office to discuss.

I don't anticipate more than 3-5 students from this certificate program ever taking ISE 352, so hopefully this doesn't affect course management at all. Do you have any other concerns related to the course? Thanks,

In theory I don't have a problem with it. My concerns were/are two-fold:

1) Seating capacity. Our department has a mandate to grow by 14% each of the next two years so I need to be cognizant of space constraints in our classes but 3-5 students is not hard to absorb so I think it will be ok from that

2) If I read your curriculum guide correctly your students don't appear to take any equivalent course to ISE 110 or take any stats courses until first semester senior year. That's problematic as a requirements for ISE 352 are ISE 110 and ST 371. While it's probably ok not to have those specific courses, some background in stats and VBA is required otherwise we would face some issues in an accreditation audit with ABET. Let me know how you think we can resolve those two prerequisite issues and we would love to support your proposal to include ISE 352 as an elective.

Dear Kanton,

Thanks for following up and being patient for my reply

I'm glad you think it should be ok to absorb our students into your enrollment projections and delivery.

To answer your concern about pre-requisites, I figured we would continue to enforce ISE 110 and ST 371 as pre-requisites for ISE 352. Doing this will limit how many students actually pursue this as an option (so therefore you might only see one of our students every year or so instead of several students), however, it at least makes it an option to take a course on the fundamentals of human-machine systems design and this would be of value to students headed into the food manufacturing industry.

Does this sound good and make sense to you?

Dear Clint Stevenson,

I am the DUP in Psychology. Lori forwarded your email to me. We are perfectly fine with adding PSY 307 to your certificate program. PSY 307 is offered every semester with typically two face-to-face sessions and one DE section (not this Fall, though). So, there is typically ample opportunity for non-majors to join. We typically get some non-majors from business, marketing, or leadership in the public section programs.

The pre-requisite for all our psychology courses in PSY 200. Nearly all undergraduates in the university take it or have credit for it (transfer, AP); thus, I would not think the prerequisite is a big hurdle for any student.

If you need some kind of statement of support, please let me know. Best, Daniel

Subject: adding PSY 307 as an elective to undergraduate certificate in food safety and quality management

To: lorifoster@ncsu.edu

Dear Professor Foster,

I coordinate the undergraduate certificate in food safety and quality management and would like to make your course PSY 307 Industrial and Organizational Psychology available as an elective to the program. Food safety and quality managers working in industry may be more successful if they can understand the psychology of their colleagues and ideas for influencing organizational cultures as they pertain to food safety and quality.

Will you please let me know whether you support my idea to add PSY 307 as an elective in the certificate program? I realize there are pre-requisites to your course and am fine with that. I'd be happy to meet in your office to discuss.

Thanks in advance,

Clint
