### Discussion:

Guest Lianne Cartee discussed the joint Biomedical Engineering (BME) program between UNC Chapel Hill and NCSU. There are some concerns that have been provided on the UNC end regarding residency, specifically that UNC students are required to take a certain number of courses at UNC to earn some minors, while NCSU does not have this requirement. Students, once admitted to the program, could take all their classes at the partner campus and meet residency requirements to earn the BME degree. Students have encountered problems with this residency requirement. BME requests that courses taken at UNC that count toward the BME major be categorized as in residence for all programs. The Chair-elect clarified that this discussion is

solely for discussion purposes; no action will be taken at this time. The Chair-Elect requested that members take this concern to their respective colleges.

Meeting adjourned: 1:04 PM.

*Respectfully submitted by Harrison Breen*
