GER>GEP Review

- **ARE 311 Agricultural Markets:** (SS) – Approved with Friendly Suggestions
Discussion: Motion to approve by member Robert Beckstead who provided an overview of the course as it was explained to him by the instructor via a call before the meeting. Member indicated the language was difficult to understand and evaluated, however the part I and II were more accessible and the reviewer was able to connect the language with the social sciences. Chair read reviewer comments indicating the third SS objective may fit better in objective 2. Another member indicated while the social sciences language was a bit foreign, however with the science aspect of data and analysis and indicated a syllabus would have helped although they recognize a syllabus is not required for GER>GEP Review. Presenter provided insight as to how students will read articles for current events. Members suggested including more layman friendly language and more explicitly link the objectives to the outcomes. Member commented that based on feedback from her own assessment that they should underline the part of the assignment that aligns with the outcome and agrees that the third homework assignment may align best with the second outcome. Members asked to draw attention to which part of the homework assignments align with the outcomes/objectives.
- **AFS/HI 275 Introduction to History of South and East Africa:** (HUM, GK) – Approved Unanimously
Discussion: Motion to approve by member David Gilmartin.
- **COM/HSS 392 International and Crosscultural Communication:** (SS, GK, USD) - Approved for SS and USD, and Tabled to the next meeting for GK.
Discussion: Motion to approve by member David Gilmartin. Chair read notes from absent members that they approve the course. Presenter expressed concern that the same assignment was used for USD and GK, indicating he believes it fulfills the USD objective 4, but not GK objective 1. The objective 1 for GK has to do with cultures outside of the United States, and the member pointed out that the only experience of “external culture” is observing individuals that have moved to the United States. The member proposed that this assignment does not provide experience with an external culture in the spirit of GK, as immigrant families that live in the US are affected/influenced by US culture and therefore, not a way to study the outside world.

Member suggested that the course return for GK with clarification that this assignment of a different assignment listed to illustrate learning about a global culture. Members and XONV members discussed splitting the action to approve the SS and USD categories but not for GK- Li Marcus confirmed that it is CUE's purview to review all categories and that the motion can be split. If GK is rejected or returned it could have the GK category removed effective the next term in which students would not be affected (ex: Spring 2020).

Members discussed tabling the action to see GK again, members voted to approve SS and USD and to table the GK category to return to the next meeting.
