Discussion: This course was presented by Peggy Domingue. Discussion around language and clarity followed. While no reviewers had objections to approval, it was suggested to hash out the wording into more clear and concise language. A reviewer suggested changing certain words, such as 'excavate' to more neutral words such as 'discover'. It was also suggested to 'clarify what "historical" approaches' refers to in the learning objective 3 outcome. Another member clarified that this type of language is used to be more specific to the program.
